

HIGHER EDUCATION SCIENCE AND TECHNOLOGY

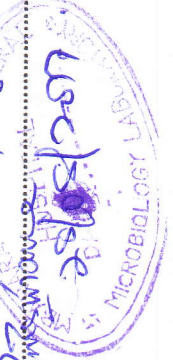

Internship Logbook

Student Name: NATUKUNDA SHALON
Month: III

Target	Achievements	Challenges	Lessons Learned
<p>Operation of some equipments for example water bath, incubator, centrifuge, weighing balance, Autoclave</p> <p>- Carrying out blood grouping, cross matching of blood.</p> <p>- Carrying out biochemical tests for example Mobility, Urea, Citrate, Indole etc.</p>	<p>- Got familiar with using some equipments like water bath, incubator, centrifuge, autoclave, to mention but a few.</p> <p>- Got familiar and used to do blood grouping and cross matching of blood.</p> <p>- Also carried out biochemical tests like Indole, Urea, Mobility, Citrate, Oxidase, Teagulase etc</p>	<p>- Since some equipments are automated, increase of power was off, they would not be used, hence delaying the work.</p>	<p>1. learnt how to operate Equipments in Microbiology Laboratory.</p> <p>1 learnt how to do cross matching, blood grouping</p> <p>- Also learnt how to carry out biochemical tests like Indole, Urate test, Mobility test, Urea test to mention but a few.</p>
<p>- Carrying out thick and thin films of blood.</p>	<p>- Got used with doing thin and thick films of blood</p>		<p>- I learnt how to carry out thin and thick smears of blood which are used in Malaria testing.</p>

Supervisors Comment: Excellent performance
